

At **Healthy Lawn Irrigation (HLI)**, every customer is a member.

Our membership programs are built to simplify seasonal irrigation, outdoor lighting, and drainage maintenance—while helping you save money year after year.

With our **Bronze, Gold, or Platinum** plans, we proactively schedule seasonal services, make timely system adjustments as conditions change, and ensure your systems remain fully code compliant. Members receive expert service at reduced labor rates and discounted material pricing, helping prevent costly breakdowns and keeping your irrigation, lighting, and drainage systems running efficiently all season long.

---

-

## What is a System Adjustment?

System adjustments are proactive inspections designed to improve efficiency, performance, and reliability—helping prevent small issues from becoming costly repairs.

During a system adjustment, our technicians will:

- Run and test every irrigation zone
- Inspect for uneven coverage, overspray, dry spots, or pooling
- Adjust sprinkler heads for proper alignment and performance
- Fine-tune controller settings based on seasonal weather changes
- Identify pressure issues, clogged nozzles, or early signs of wear
- Make recommendations to improve water efficiency and system health

---

## MEMBERSHIP = REAL SAVINGS

HLI members enjoy meaningful annual savings compared to other irrigation contractors in the Mid-South through proactive service, discounted rates, and priority scheduling.
